Profile

As a Senior Software Engineer with over 8 years of experience in the software industry, I possess a strong passion for delivering high-quality software solutions. My enthusiasm for learning drives me to embrace new and exciting challenges. Beyond technical expertise, I deeply care about the impact software has on society, recognizing the significance of its careful and thoughtful development.

Employment History

Senior Software Engineer, The Hexaa, Austin, Texas

JUNE 2021 – PRESENT

- I take charge of defining and developing comprehensive guidelines that serve as a cornerstone for maintaining exceptional code quality throughout the development process.
- As a supportive team member, I actively assist developers and engineers in effectively resolving critical issues, ensuring a smooth and efficient project progression.
- My expertise in identifying and resolving technical challenges enables me to overcome obstacles effectively and contribute to the successful delivery of projects.
- Through active collaboration with cross-functional teams, I play a pivotal role in delivering innovative advancements and solutions, leading to significant positive impacts on project outcomes.
- I am dedicated to continuously building and improving various tools that enhance the team's workflow and streamline project management efforts.
- In a mentorship capacity, I take pride in guiding and leading junior developers, fostering their growth and success as valuable contributors to the team.

Senior Software Engineer, WhizzBridge (Outsourced by The Hexaa), Delaware, United States

NOVEMBER 2021 – JANUARY 2023

- With expertise in both back-end and front-end development using Laravel and Vue.js, I take great pride in my ability to create impact-full software solutions that span the entire stack.
- Among my key responsibilities, I consistently delivered clean and highly efficient code, ensuring the seamless functionality of components. By implementing front-end unit tests with jest and Vue-test-utils, I secure the reliability and exceptional performance of our applications.
- As part of my commitment to quality, I diligently conducted code reviews, meticulously scrutinizing each line of code before it reaches the production server. My vigilant approach ensures that only well-crafted and top-tier code is entrusted with serving our users.

Software Engineer, Abacus Consulting, Lahore

NOVEMBER 2020 – JUNE 2021

- I have successfully contributed to the continuous growth and evolution of our in-house software solution by developing new features and ensuring the smooth maintenance of existing functionalities.

Languages

English

Urdu

Hobbies

Reading, Swimming, Table Tennis,
Soccer, Cricket

- Through my relentless pursuit of excellence and dedication to implementing best practices, I have significantly improved the code quality, resulting in a more efficient and reliable software system.
- It brings me great satisfaction to work harmoniously within a team, where I actively support and assist my peers, fostering a collaborative environment that drives success and accomplishment.

Software Engineer, Shayan Solutions, Lahore

JUNE 2018 – NOVEMBER 2020

- With determination and expertise, I successfully eliminated errors and bugs from a legacy system, while also implementing new and innovative features, significantly enhancing its performance and usability.
- I take immense pride in my achievement of developing APIs for multiple mobile applications, featured on the Apple App Store and Google Play Store. I am more than willing to provide references attesting to the impact and quality of my work.
- Leveraging my skills in Laravel Nova, Google IoT Core, and Google BigQuery, I successfully crafted a cutting-edge application that automates the seamless switching of real IoT devices within organizations. This accomplishment represents a milestone in the realm of efficient and sophisticated device management.

Software Developer, Rocksteady Software (Defunct), Lahore

DECEMBER 2016 – JUNE 2018

- As a full-stack developer, I proudly assumed the role of shaping essential business logic and skillfully crafting APIs for an app using Laravel. My contributions played a pivotal role in building a powerful and reliable back-end foundation.
- In addition to back-end development, I took charge of constructing the front-end for two distinct applications—one with AngularJS and the other utilizing Angular. My dedication to user experience and interface design resulted in captivating and seamless user interactions.
- Alongside major projects, I enthusiastically embraced smaller yet significant endeavors, adeptly working with CodeIgniter and CakePHP. My versatility and commitment allowed me to deliver successful outcomes across diverse technologies and frameworks.

Software Developer, Soft Pyramid, Lahore

APRIL 2015 – DECEMBER 2016

- In my role, I was responsible for coding the business logic for applications using Laravel. I utilized jQuery for front-end manipulation and handling, ensuring a seamless user experience. Additionally, I successfully integrated various 3rd party APIs, enhancing the applications' functionality without any major issues.
- I had the opportunity to add login features through Facebook and Gmail, improving user accessibility across different platforms. Moreover, I skillfully integrated Google Maps into a web application, allowing vendor details to be displayed on the map for user convenience.
- In a diligent manner, I tackled the task of integrating payment gateways like Stripe, Sage Pay, and PayPal for three different web applications, ensuring secure and efficient transactions for users.

Education

Bachelor of Computer Science, Virtual University of Pakistan, Lahore

SEPTEMBER 2009 – MAY 2015

HSSC, Govt. College of Science, Lahore, Lahore

2006 – 2009
